Call for Tutorials

The IEEE Asia Pacific Conference on Circuits and Systems (APCCAS) is the regional flagship conference of the IEEE Circuits and Systems Society in the Asia and Pacific Region (Region10). APCCAS 2026 will be held at the ACROS Fukuoka in Fukuoka, Japan, from October 25th to 28th, 2026. The conference theme of APCCAS 2026 is **"Towards Creative-AI from Silicon-Sea-Belt"**, which is aligned with the Kyushu Island-originated idea of establishing a research and development base for semiconductor integrated circuit design in Asia-Pacific countries.

The APCCAS 2026 Organizing Committee invites proposals for tutorials to complement the regular program. Tutorials should provide in-depth coverage of emerging topics, offering a comprehensive overview and insights into the latest advancements for both researchers and practitioners.

Tutorial proposals to the APCCAS 2026 should include:
- ❑ Title of the tutorial
- ❑ Indicate short (1.5 hour) session or half-day (3 hours) session
- ❑ Abstract
- ❑ Names, affiliations, pictures, short bios, contact details and expertise of presenters

All proposals must be submitted online from Google Forms (QR Code).

Note that important aspects in evaluating Tutorial proposals include the timeliness of the topic, quality/track record of the proposers, and expected value added to the overall technical program.

If you have any questions or comments, please contact the *IEEE APCCAS 2026 Tutorial Chair:*
